# Jano González

## Site Reliability Engineer

Berlin, Germany | info@janogonzalez.com | github.com/janogonzalez

#### **Profile**

Engineer with 15+ years experience driving large technical projects in both team lead and individual contributor positions.

I enjoy mentoring and public speaking, having presented in conferences like <u>LISA</u>, <u>RubyNation</u> and <u>JRubyConf</u>.

## **Experience**

Staff Engineer, Reliability – Contentful

2020

#### **Production Engineer – SoundCloud**

2018 - 2020

- Improved hardware utilization by 75% and simplified provisioning of caching resources by migrating Memcached clusters from bare-metal to Kubernetes
- Enabled simple multi-datacenter configuration management by improving the Chef auto-upload workflow

### **Engineer – SoundCloud**

2014 - 2018

- Improved hardware utilization by 50% and enabled multiple daily deploys in SoundCloud's original monolith by migrating it from bare-metal to Kubernetes
- Secured 6 extra years without space issues in the main database cluster by extracting social graph services from the monolith

CTO – Hopln 2012 – 2013

- Led and recruited the development team
- Created the infrastructure and backend

## **Developer and Project Manager**

Before 2012

- Led teams of up to 7 people
- Architected large scale middleware integration projects for banking and retail

#### Education

Software Engineering – Universidad del Bío-Bío

#### **Technical Skills**

Ruby, Scala, Go, Node.js, Kubernetes, Prometheus, AWS, Terraform, Chef, MySQL, Cassandra, RabbitMQ, Kafka, Linux.
