Jano González

Málaga, Spain | info@janogonzalez.com | github.com/janogonzalez

Profile

Software Engineer with 20+ years experience architecting and scaling distributed systems that serve millions of requests per minute.

Technical lead who has delivered measurable impact on developer productivity and system reliability, driven cross-team initiatives, and mentored 10+ engineers.

Experience

Senior Software Engineer – Datadog **2026 – Now**

Staff Software Engineer – Spotify **2023 – 2025**

- Increased self-reported developer productivity and reduced engineering support load by 50% by developing RAG and agentic systems
- Ensured a safe rollout of internal AI assistance tools to 5K+ internal users

Staff Software Engineer – Shopify **2021 – 2022**

- Owned the multi-region Kubernetes infrastructure of ~15K nodes for Shopify's core workloads, including improving fleet observability and supporting the expansion to Europe

Staff Software Engineer – Contentful **2020 – 2021**

- Enabled a zero-downtime rollout of the GraphQL Content API to tens of thousands of customers by introducing a new tenant type with isolated infrastructure and rate limits

Senior Software Engineer – SoundCloud **2014 – 2020**

- Secured 6 extra years of operational continuity by extracting social graph microservices out of a Ruby on Rails monolith
- Architected microservices using Scala and JRuby, coordinated the integration with 5+ engineering teams and safely rolled out traffic to 100M+ users
- Improved resource utilization by 50% and enabled multiple deploys per day by migrating the main Ruby on Rails monolith from bare-metal to Kubernetes

CTO – Hop.In **2012 – 2013**

- Recruited and led a team of 5 developers to drive the transition from prototype to MVP

Software Engineer / Engineering Manager – Multiple Organizations **2005 – 2011**

- Led teams of up to 7 developers to deliver 2FA middleware used by 100K+ customers

Technical Skills

- **Languages:** TypeScript, SQL, Java, Python, Ruby, Scala, Go, JavaScript
- **Technologies:** Kubernetes, GCP, Terraform, Postgres, MySQL, Cassandra
- **Domains:** AI Engineering, Developer Experience, Platform Engineering, Site Reliability

Education

Software Engineer – Universidad del Bío-Bío, Chile **2000 – 2004**
